had to get her book. I am not a technical person by nature. Her book has not only helped me to even start the basics, but to give me an understanding that I can join in on the process of creating internet systems because of 31 Days to Millionaire Marketing Miracles. Even if you are new to internet marketing, you can get started. This has information for all levels of skills. And, this book has inspired me to learn more to aspire to where I need to go with my internet marketing. Great job! 1 of 1 people found the following review helpful. This book is so GREAT I bought the updated VERSION! By Cydney O'Sullivan I LOVE this book. I bought it after meeting Tracy before she wrote it and was so impressed with her success and how she documented every step of the way and then made it available as a plan others could follow in this book. I got so much value out of this book, that I recently asked her to let me interview her about her experience writing and marketing it, and bought the updated version of the book to use all the step-by-step guidelines in the launching of my own book, and new online business. It is much more than a book, it's an entire system for setting up a successful online business. I have taken years of trainings in order to learn how to run a business entirely offline and Tracy Repchuk stands out as one of the few truly talented business mentors who can make the processes simple to understand, and implement, and if you take advantage of her offers to join her mailing list, she sends you ongoing support and ideas to keep improving your business and profitability. I can see why her book has been a best seller and why she has such a huge and loyal following. She genuinely cares about her students and helping them to achieve success in life and online. This book is a must read for anyone taking their business online today or in the future. Cydney O'Sullivan Author, Social Marketing Superstars: Social Media Mystery to Mastery in 30 Days 1 of 1 people found the following review helpful. A Direct Path from a leading Internet Marketer who happens to be a Woman By Sandra L. Doughty Tracy cuts right to the point. She said it all on the cover "A Direct Path to Internet Profits". That is what attracted me to this book. There are so many books, websites, and blogs on this subject - all trying to sell you something. Okay - I bought in to Tracy's book, and it is well worth the green. Each day for 31 days you are guided and given tools to help you increase traffic, readership, knowledge and tools to make you an Internet Marketing Pro. She points out very clearly the path, and tells you in black and white who the leading people are in each of their categories for everything you would want to know about all aspects of internet marketing. She is right on the money too. From Brad Callen for SEO expertise to Yanik Silver for copywriting, affiliate and information marketing. These people are trustworthy, and well worth following. DON'T Listen to every Tom, Dick and Hairy! Pick your team - and no matter what follow their advice. For instance Brad Callen is for real - when you search for him ... he is on page one of Google! He tells it like it is - and he is giving clear instructions on how to pursue search engine optimization. However, he makes it very clear to also try your own ideas and be unique. Test the waters etc.. That's advice I can respect. No Big Ego here - just good advise! There's not really any new unique ideas in Tracy's book BUT.... what makes it really valuable is the collaboration of all the right tools to set you on your own path. I highly recommend this book- and anything Tracy puts together including her coaching, mentoring sites, and blogs [...]
