From SAGE Publications, Inc : Diversity in Schools (Debating Issues in American Education: A SAGE Reference Set) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Diversity in Schools (Debating Issues in American Education: A SAGE Reference Set):

Education of America's school children always has been and always will be a hot-button issue. From what should be

taught to how to pay for education to how to keep kids safe in schools, impassioned debates emerge and mushroom, both within the scholarly community and among the general public. This volume in the point/counterpoint Debating Issues in American Education reference series tackles the topic of diversity in schools. Fifteen to twenty chapters explore such varied issues as ability grouping, affirmative action, bilingual education, gender bias, illegal aliens in the classroom, mainstreaming and inclusion, and more. Each chapter opens with an introductory essay by the volume editor, followed by point/counterpoint articles written and signed by invited experts, and concludes with Further Readings and Resources, thus providing readers with views on multiple sides of diversity issues in America's schools and pointing them toward more in-depth resources for further exploration.
