**George P. Boulden : DK Essential Managers: Thinking Creatively** before purchasing it in order to gage whether or not it would be worth my time, and all praised DK Essential Managers: Thinking Creatively:

0 of 0 people found the following review helpful. Excellent booklet!By Jorge L. M. MesquitaThis booklet is very direct in communicating its message, however doing it in a very friendly way, which I consider part of "DK Essential Managers" strategy. I read it on Kindle's Android and, compared to the other paper booklets I have, the digital format doesn't let the printing one behind. I recommend it along other books one desires to read, as I consider it is complementary to the Leadership theme.0 of 3 people found the following review helpful. A Classic Example of...By Leandro Flaherty...what happens when creativity is subjugated to analytic, overly structured methods.This book offers the path to NOT be creative. What it does is reinforce positive "group-think" behaviour.Why 5 stars? Because it is a perfect contradiction. Recommended.Implementing thought, is all there is to creativity.

DK's best-selling Essential Managers series are ideal for managers at every level. These compact references demonstrate the techniques and skills that are useful in any work environment, making this series the most accessible single-subject business guides on the market.
