MarketerBy Steve LacyI have followed Ty from a distance and I can tell you he knows what he is doing. You have heard it said "some do and those that can't teach." Well Ty is the exception to this rule. He has and is doing and he also is a great teacher. In his new book "Double You Income with Network Marketing" you will learn how he has done it and more importantly how he has successfully taught other to do it. The entire book is great but Part III "The Internet Changes Everything" is the best part of the book to me. Most books on MLM totally leave Internet Marketing out. Yet many of the fastest growing new MLM leaders are using the internet to explode their businesses. The one chapter "Funded Proposals and Marketing Funnels" is worth 100 times the price of the book. Understand that if you said "Funded Proposal" 90% of people involved in MLM they would have no idea of what you are talking about. However, if you use the internet to get leads for your MLM business and you are not using a "Funded Proposal" you are throwing money away. By properly using a "Funded Proposal" you can get all the leads you want on the internet and it can cost you nothing (you may even make some extra money doing this). And more importantly you can teach your down-line to do the same and explode the number of leads coming into your network. Which will explode your business. If you are in a MLM business, not buying this book will cost you money. 0 of 0 people found the following review helpful. New Ideas for a New DecadeBy A. I. - Love to readWhat was most useful was how to integrate social media with network marketing. I recently reengaged with network marketing after a 35 year hiatus. Glad to see it is no longer about recruiting family friends and neighbors. 5 of 5 people found the following review helpful. Excellent!!By S. AdamsDetailed, informative, inspirational and relevant. A must read!! I'm not Ty's business partner but reading the book certainly makes me want to be. Great effort by a very creative networker, blogger and family man.
