**From Pergamon : Dynamic Modelling and Control of National Economies 1989: Selected Papers from the 6th IFAC Symposium, Edinburgh, UK, 27ndash;29 June 1989 (IFAC Symposia Series)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Dynamic Modelling and Control of National Economies 1989: Selected Papers from the 6th IFAC Symposium, Edinburgh, UK, 27ndash;29 June 1989 (IFAC

Symposia Series):

The Symposium aimed at analysing and solving the various problems of representation and analysis of decision making in economic systems starting from the level of the individual firm and ending up with the complexities of international policy coordination. The papers are grouped into subject areas such as game theory, control methods, international policy coordination and the applications of artificial intelligence and experts systems as a framework in economic modelling and control. The Symposium therefore provides a wide range of important information for those involved or interested in the planning of company and national economics.
