Jeffrey K. Pinto, Jeffrey W. Trailer : Leadership Skills for Project Managers (Editor's Choice Series) before purchasing it in order to gage whether or not it would be worth my time, and all praised Leadership Skills for Project Managers (Editor's Choice Series):

4 of 4 people found the following review helpful. A good book for project leadersBy CustomerI admit I was a little skeptical when I started reading this book. It is a compilation of various papers related to project leadership. The beauty of the book is that is provides several different ways of looking at leadership. From soft skills to hard

measurements there is likely something in this book for everyone. There are probably a couple of papers in the book that you will NOT like. I would recommend this book to any developing project manager. (I think that covers all of us!) Read and re-read those papers that you can relate to and don't worry about the ones that you don't relate to. I would expect that anyone would relate to more than 50% of this book and that is well worth your time.

Chosen from the best of Project Management Journal reg; and PM Networkreg;, the articles reprinted in this volume revolve around the nature of the project management challenge, the skills required of effective project management practitioners, and some of the important leadership and management principles. Taken together, they offer a comprehensive and thorough look at the immense leadership challenges and skills necessary for successfully navigating the minefields of project management.

About the Author Jeffrey K. Pinto, Ph.D., is the Samuel A. and Elizabeth B. Breene University Endowed Fellow in Management and Professor of Management in the School of Business at Penn State-Erie. Jeffrey W. Trailer is assistant professor of management in the School of Business at Penn State-Erie.
