words that should inspire a mass exodus from Corporate America to "Leap!" Anyone who is contemplating a move into the free and brave world of their own solo "gig," should not do it without a glass of wine, a warm fire burning and a good read through this book as preparation. It is written with just the right amount of dare and common sense. Really, if you're ready for leap, nothing should stop you - and Sanders' words tell you that in a way that makes sense. Reading this book is the first step in a process that results in the head tilting question, "what am I waiting for?" A true must read for anyone with the happy-go-lucky knowledge attitude necessary to make work fun. And then, after a successful launch, a second read is surprisingly helpful too. LEAP!: Ditch Your Job, Start Your Own Business Set Yourself Free

Who Do You Think You Are? Times are changing fast. Traditional working practices and the concept of a conventional job are increasingly becoming things of the past as we make sense of a new marketplace where the only limit to success is our own imagination. What Does it take to Survive in This New Scrambled Up World of Work? * Attitude - to get started * Enterprise - to succeed * Success - at maximising opportunities * Worklife - in the right balance The challenges - and the opportunities - for the 'entrepreneur-within' the huge. For micro-businesses, home-workers, freelancers, it's all for the taking. That is the essence of LEAP! A stimulus for taking the plunge to go it alone and set yourself free... and for making it up as you go along! "Ian Sanders connects brilliantly wit the mindset and needs of talented professionals in their migration away from corporate mediocrity. LEAP! is a personal guidebook to both the practicality and emotion of making work matter." - Chris Nel, Partner, Tom Peters Company
