Peter J. Boettke : Living Economics: Yesterday, Today, and Tomorrow (Independent Studies in Political Economy) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Living Economics: Yesterday, Today, and Tomorrow (Independent Studies in Political Economy):

0 of 0 people found the following review helpful. Five StarsBy cwcarlson@msn.comA great great book and great service!1 of 1 people found the following review helpful. Great, but not for beginnersBy C.H. HayesThis is a five star

book provided that the reader has done at least a little reading on the subject of economics or has taken a college level course in that subject. I wouldn't recommend for your introduction, but I definitely do recommend it for anyone who has read a little about economics and wants to understand the different schools of thought. 2 of 3 people found the following review helpful. Inspiring book by a great teacher! By commieworm Peter Boettke has read a lot and he teaches what he has learnt in a beautiful way in order we understand what the market economy is about. Boettke is a passionate teacher and dedicated student who loves what he does and that is what one gets when he reads the book. He has deep respect with those who think different and tries to find the best in all strands of thought. The book is a journey through his great masters ranging from Rothbard, Hayek and Elinor Ostrom and James Buchanan. A must read book!

A great supplemental text for the teaching of economics, this book offers a clear perspective and a passion for a deeper understanding of the subject. Economics is not merely a game to be played by clever professionals, but a discipline that touches upon the most pressing practical issues at any historical juncture. The wealth and poverty of nations is at stake; the length and quality of life turns on the economic conditions individuals find themselves living within. Touching upon a variety of subjects— including market socialism, political economy, and economics education— this reference contains the wisdom of an expert in the field.

“A superb book. . . . It is vintage Boettke: engaging, witty, and chock full of insight. This book should be put in the hands of every first-year student of economics, if only to show them what they are missing!” — Bruce Caldwell, research professor of economics, Duke University

“A solid book that counters the excessive simulation of modern academic economics while, at the same time, avoiding the temptation to extend application of the logic beyond reasonable limits. Boettke concentrates on the primary purpose of economics, which is to convey an understanding of how, within properly designed institutional constraints, operative markets generate and distribute value without overt conflict.” — James M. Buchanan, distinguished professor emeritus of economics, George Mason University

“Peter Boettke's book *Living Economics* not only is splendidly characterized by broad erudition, solid analysis, shrewd observation, and expositional clarity, it appears at a propitious moment.” — William R. Allen, professor emeritus of economics, University of California— Los Angeles

“A remarkable book. The volume luminously reflects the amazing breadth of Professor Boettke's reading, and the deep and careful thoughtfulness with which he reads.” — Israel M. Kirzner, professor emeritus of economics, New York University

About the Author Peter J. Boettke is a research fellow at the Independent Institute, a professor of economics at George Mason University, and the editor of the *Journal of Austrian Economics*. He is also the recipient of the Golden Dozen Award for Excellence in Teaching from the College of Arts and Sciences at New York University and the author of several books, including *Calculation and Coordination: Essays on Socialism and Transitional Political Economy*; *The Political Economy of Soviet Socialism: The Formative Years, 1918–1928*; and *Why Perestroika Failed: The Economics and Politics of Socialism Transformation*. He lives in Fairfax, Virginia.
