John Baichtal, Wendy Jehanara Tremayne, Andrew 'bunnie' Huang, Sophi Kravitz, Mitch Altman, Jimmy DiResta, Eri Gentry, Tito Jankowski, Alex Dyba, Michael Krumpus, Susan Solarz, Rob Klingberg, Joe Meno, David Gauntlett, Adam Wolf, Mike Hord : **Maker Pro: Essays on Making a Living as a Maker** before purchasing it in order to gage whether or not it would be worth my time, and all praised **Maker Pro: Essays on Making a Living as a Maker**:

3 of 3 people found the following review helpful. Should be called **Maker Pro Interviews**By SLLIt's a collection of

stories of Makers who made the jump to professional makers who now make a living at it. It's is inspirational, but it's more like a series of interviews than a book about becoming a Pro Maker. It is definitely inspiring, but not any kind of manual or guide. 1 of 1 people found the following review helpful. Not particularly useful for someone with even minimal business experience. By apNot particularly useful for someone with even minimal business experience. These are personal stories of people "makers" and what they sell. Unfortunately, there's not much to glean here if you are interested in started your own business as a "maker." The basic take away from these 80% of the chapters is, I started making something as a hobby and never thought it would amount to anything and then it grew into a small hobby business. You will not learn much about developing your product, marketing, or scaling a business from this book. If you are looking for some inspiration, perhaps it will be helpful, but don't think of this as a business book. 0 of 1 people found the following review helpful. Five Stars By James Montgomery A+

Maker Pro is a book of essays by more than a dozen prominent and up-and-coming professional makers (Maker Pros). Each essay includes advice and stories on topics such as starting a kit-making business, taking a hardware project open-source, and plenty of encouragement to "quit your day job." This book is a reference for anyone who dreams of turning a hobby into a small business, and features stories from well-known professional makers; it will turn aspiration into inspiration.

About the Author John Baichtal got his start writing blog posts for Wired's legendary GeekDad blog as well as the DIYer's bible MAKE Magazine. From there he branched out into authoring books about toys, tools, robots, and hobby electronics. He is the co-author of *The Cult of Lego* (No Starch) and author of *Hack This: 24 Incredible Hackerspace Projects from the DIY Movement* as well as *Basic Robot Building With Lego Mindstorms NXT 2.0* (both from Que). Most recently he wrote *Make: Lego and Arduino Projects for MAKE*, collaborating with Adam Wolf and Matthew Beckler. He lives in Minneapolis, MN, with his wife and 3 children.
