Clifford W. Smith Jr., Jerold Zimmerman, James Brickley : Managerial Economics Organizational Architecture (Irwin Economics) before purchasing it in order to gage whether or not it would be worth my time, and all praised Managerial Economics Organizational Architecture (Irwin Economics):

0 of 0 people found the following review helpful. Just okBy JeremyThe text needs to walk you through more actual problems.1 of 1 people found the following review helpful. Felt like there could have been better explanationsBy Geri NewmanI appreciated the rental, but the book was awful to try to read and decipher. Felt like there could have been better explanations. At least the rental was easy to do.4 of 5 people found the following review helpful. I did not find this book useful for me as I have had no prior economics ...By AbbyMy Economics professor assigned this book for his course. I did not find this book useful for me as I have had no prior economics education prior to this MBA course. The graphs and equations were less than helpful, the book read more like a novel than an instructional textbook to help me learn. I ended up purchasing additional economics books and watching YouTube videos to understand the concepts from this textbook.

Managerial Economics and Organizational Architecture, 6e helps the student to gain an understanding of the basic tools of economics used to solve important business problems. It also provides an in-depth analysis of the firm and corporate governance topics. The Sixth Edition continues with a focus on decision-making and managerial applications within the structure of an organization. Managerial Economics and Organizational Architecture is thoroughly integrated with the adaptive digital tools available in McGraw-Hill's LearnSmart Advantage Suite, proven to increase student engagement and success in the course.

About the Author Research and teaching interests involve financial and managerial accounting. He and Professor Ross L. Watts received American Institute of Certified Public Accountants Awards in 1979 and 1980 for their joint papers. He received the American Accounting Association award for Seminal Contribution to Accounting Literature in 2004. He was the 1978 winner of the Competitive Manuscript Award, sponsored by the American Accounting Association, for his paper, "The Costs and Benefits of Cost Allocation." His research, which has come to be called "positive theories of accounting," seeks to understand the costs and benefits of various accounting procedures. He and Watts co-authored a book, *Positive Accounting Theory*, published by Prentice-Hall in 1986. Research and teaching interests in the economics of organizations, corporate governance and compensation policy, corporate finance, franchising and banking. From 1989 to 1991, he was chairman of the Finance Department and research director at the University of Utah's Garn Institute of Finance. Professor Brickley was chairman of the Committee on MBA Programs from 1994-1997. Clifford W. Smith, Jr. University of Rochester
