Joyce Bone : Millionaire Moms: The Art of Raising a Business and a Family at the Same Time before purchasing it in order to gauge whether or not it would be worth my time, and all praised Millionaire Moms: The Art of Raising a Business and a Family at the Same Time:

0 of 0 people found the following review helpful. Millionaire MomsBy Cult Vines MikeI met Joyce a few years back on twitter and about a year ago learned that she had written a book. Wondering what she had to say, I ordered her book on and picked it up the moment it arrived in the mail. What I found was astounding! She is such an amazing person

and her life is so incredibly interesting that once you start reading her book, you can't put it down! She took an idea that was very esoteric and with a little cash and a whole lot of hard work, created a business that made her and her shareholders very wealthy! I couldn't wait to read this book and was hooked from the time I picked it up till the time I finished it. I want more! Please Joyce, launch another business and write about it! In the meantime, I ordered another book just to send to my sister, an aspiring entrepreneur, whom I knew would love this book just as much as I did, too! An Inspirational Book That All Women Should Read By Mary Buck I purchased the book "Millionaire Moms: The Art of Raising a Business and a Family at the Same Time" last fall at one of Joyce's book-signing events. I read the book from cover to cover in less than one day; I could not put it down. Joyce is very funny, yet articulate in making her point. Any woman can be financially independent through motivation, conquering fear and learning how to juggle family and business. She interviews other millionaire moms who tell their story, so you can read first-hand how other moms besides Joyce have turned ideas into a business success. The book inspired me so much, I decided to go ahead with one of my business ideas and invented a new product which I launched early in 2010. 0 of 0 people found the following review helpful. This book is truly one of the premier books for anyone starting a business in today's hectic world. By ed dillon Joyce has taken the accumulated knowledge of everyone she has interviewed and made the secrets of success available to us all. I just finished reading the book for the fourth time and am amazed at the amount of knowledge she has condensed into this easy to read book- I find new details each time I read it. Unlike the subjects of many other business books, Joyce is not dealing in theory- she and the other women in the book have all accomplished everything they share- both the good and the bad. This book will help you start on your life long journey of personal, spiritual, family, and business success. I highly recommend it to anyone who is ready to have a more fulfilling life. Make sure you follow Joyce Bone at [...] - millionairemoms. She is a very good author/mentor and is very accessible.

An Entrepreneur is Born! Do you need flexibility to raise your children and income for the family budget? Tired of saying "No" to your family because of finances? Do you desire more out of your life?
