By Anthony WickJay Richards does a great job tackling the issues of why foreign aide doesn't work, and the many other unintended consequences of government intervention into the market place. My beef with this book is that it doesn't go far enough. Government is ultimately the problem. We have been living under cronyism (the collusion of big government and big business) and not allowing a free market, the consumer, to determine where the economy is heading. He doesn't get after the idea of a central planned economy through central banking and bubbles bursting that sent the market into a crash in 2008 and still plagues us. Christians can be and should be Capitalists. More so, I urge

anyone interested to look into Anarcho-Capitalism. Murray Rothbard, David Friedman, Frederic Bastiat.0 of 0 people found the following review helpful. Jay does an excellent job laying out the Theist case for CapitalismBy Nelson J. LaplanteJay does an excellent job laying out the Theist case for Capitalism. I purchased this book as reference for my own research on the topic after hearing his interview on Michelle Mendoza's program on KGNW.0 of 0 people found the following review helpful. Well written with concepts explained and arguments presented with clarityBy SeanThis book should be read by all Christians, especially those who do not agree with proposition in the title. I, for one, used to be tossed on the waves of uncertainty now have clarity.

In Money, Greed, and God: Why Capitalism is the Solution and Not the Problem, Senior Fellow at the Discovery Institute Jay W. Richards and bestselling author of Indivisible: Restoring Faith, Family, and Freedom Before It's Too Late and Infiltrated: How to Stop the Insiders and Activists Who Are Exploiting the Financial Crisis to Control Our Lives and Our Fortunes, defends capitalism within the context of the Christian faith, revealing how entrepreneurial enterprise, based on hard work, honesty, and trust, actually fosters creativity and growth. In doing so, Money, Greed, and God exposes eight myths about capitalism, and demonstrates that a good Christian can be a good capitalist.
