Stanley Buchholz Kimball : Mormon Pioneer Trail, The: MTA 1997 Official Guide before purchasing it in order to gauge whether or not it would be worth my time, and all praised Mormon Pioneer Trail, The: MTA 1997 Official Guide:

0 of 0 people found the following review helpful. ExcellenceBy judithThis book is very accurate and interesting, with lots of beautiful, useful pictures and maps as well. When planning a historical trip, this book helps you figure out what places to visit and where to stop for markers, exhibits and roadside pullouts. Or you can just read and look at the pictures and learn a lot.0 of 0 people found the following review helpful. Four StarsBy HH928Very good. It would be nice if there were something available on this topic that's been written more recently.1 of 1 people found the following review helpful. Mormon Pioneer TrailBy Elly Book BuffThis is a really great map, showing the trail, the modern roads to get to the scenic, historic points of information.. This looks like a good adventure for a family vacation.

THE MORMON PIONEER TRAIL guide is provided for modern-day travelers who are making their own rediscovery of the Mormon Pioneer Trail and the wagon trains and handcart companies that journeyed along that trail. The guide is dedicated to the thousands who followed the pioneer trail west into the Valley of the Great Salt Lake and their Zion in the wilderness--and to those who were laid to rest along the way.

Our historic trails are now becoming better known, more fully appreciated, more carefully preserved, and more clearly marked. In an effort to preserve the country's historic and recreational resources, Congress enacte the National Trails System Act in 1968. Trails have been added to the system over the years, and there are now 20 national historic and scenic trails, including the Mormon Pioneer National Historic Trail.
