Jean Chatzky : Operation Money: A Financial Guide for Military Service Members and Families before purchasing it in order to gage whether or not it would be worth my time, and all praised Operation Money: A Financial Guide for Military Service Members and Families:

2 of 2 people found the following review helpful. Excellent financial resource for military members and their families!By Ryan GuinaExcellent overview of personal finance topics as they apply to the military. This book covers just about all the basics for military finance, including, budgeting, getting out of debt, establishing and improving your credit, buying a home, saving and investing, insurance, transitioning out of the military, finances for caregivers, and

more. There is a lot of information, and not a lot of fluff. in short, this is an excellent resource for military members and their families. I wish it existed when I served on active duty in the USAF!0 of 0 people found the following review helpful. "From investing in education and affording a home to choosing the right credit products and adequately saving for retirement, Operation Money offers military-specific advice to achieving financial stability." --Michael E. O'Neill, Chairman, Citigroup Inc., First Lieutenant, U.S. Marine Corps, 1969-1971

When it comes to money, military service members and their families face financial challenges that civilians simply don't. While serving on active duty, members of the military are typically asked to move every few years and must learn how to manage money during multiple deployments. And managing the finances means figuring out a way to maintain a balanced budget while communication is limited. Meanwhile, the spouse at home is essentially functioning as a single parent without the necessary skills and tools to make serving as the family's Chief Financial Officer as easy as possible. That is, until now.

Jean Chatzky, financial editor for NBC's Today show, is here to help with Operation Money, a mission-based guide that provides detailed resources to prevent money problems before they happen; gives you the tools to manage through a tough situation if you're already facing one; and empowers you to figure out how best to plan for your future—either in or out of the military—and then assists you in doing so. The chapters throughout focus on saving, debt, credit, buying and financing a home, buying and financing a car, paying for college, protecting the ones you love with insurance and an estate plan, dealing with a relocation, managing money through a deployment, handling a furlough, retirement, divorce, and the financial aspects of caregiving. With contributions from Blue Star Families, MSCNN, and other military related organizations, Operation Money is a must-read for those who serve that are looking to take charge of their financial present and future. The enhanced edition includes video tips and advice from Jean Chatzky, as well as a bonus section featuring interviews with military spouses and veterans who share their personal financial stories with Jean. Operation Money is published and available free-of-charge thanks to the generous support of Citi. For more information on Citi's support for military veterans and their families, visit www.citilutes.com.

About Jean Chatzky

Jean Chatzky, the financial editor for NBC's TODAY show, is an award-winning personal finance journalist, AARP's personal finance ambassador, and a contributing editor for Fortune magazine. Jean is a best-selling author; her eighth and most recent book is Money Rules: The Simple Path to Lifelong Security. She believes knowing how to manage our money is one of the most important life skills for people at every age and has made it her mission to help simplify money matters, increasing financial literacy both now and for the future. Jean lives with her family in Westchester County, New York. Visit www.jeanchatzky.com for more information.
