From Routledge : Paving the Road to Sustainable Transport: Governance and innovation in low-carbon vehicles (Routledge Studies in Ecological Economics) before purchasing it in order to gage whether or not it would be worth my time, and all praised Paving the Road to Sustainable Transport: Governance and innovation in low-

carbon vehicles (Routledge Studies in Ecological Economics):

This book is about how societies around the world can accelerate innovation in sustainable transport. It examines the relationship between policy change and the development of technological innovations in low carbon vehicle technologies, including biofuels, hybrid-electric vehicles, electric vehicles and fuel cells. Examining this relationship across countries and regions that are leaders in vehicle manufacturing and innovation, such as the European Union, Germany, Sweden, China, Japan, Korea and USA, the book aims to learn lessons about policy and innovation performance.
