We have to get out of govt running this part of our livesBy CustomerEasy to understand and reader is given what needs to be done to fix the problem of govt holding our health care. My husband had a valve replacement done as open

heart surgery as opposed to the leg vein type. He was deemed too old and Medicare only pays for the open heart surgery which has a much longer recovery period. Govt told him what he had to choose!

President Barack Obama has declared that his signature health reform law the Patient Protection and Affordable Care Act is here to stay. But his days in the White House are numbered, and the law has failed: insurance premiums and deductibles have skyrocketed, patients are losing access to doctors, and economic growth has been crushed. In this Broadside, Sally C. Pipes provides an actionable blueprint for health care reform this campaign season, which the next president can implement on Day One. This book provides a replacement plan for Obamacare one that will provide affordable, accessible, quality health care for all Americans.
