How to become an eBay Power Seller extraordinaireBy imagineer586Titanium eBay is a book that teaches you how to be an eBay Power Seller extraordinaire!This is really a fantastic book because I have been thinking about starting an eBay business for some time now - but was very intimidating. I thought it would be an expensive and complicated process - but McGrath explains the process in plain English and he explains how the potential to become a Titanium Power Seller is fairly simple and not too expensive!Titanium EBay covers all of the basics such as getting officially organized as a business, how to sell something on eBay, where to find stuff to sell on eBay and how to sell stuff more efficiently on and off of eBay. It also discusses business management, financing and organization.The book gives you very simple and powerful tips and tricks to sell on eBay. A few sections of the book focuses on researching products to sell on eBay. I really found this to be one of the most valuable subjects of the book.My problem of late is that I am not finding a source from which to buy products to sell, and which of those products is actually profitable on eBay. McGrath goes into great detail about

the different methods to research a product and its valuability in selling. He talks about the product's life-cycles and how to track products that have sold through eBay. Overall it's a really great book. It is easy to read and very inspiring. There was much information that directs newbies to many different paths that could lead to success with hard work and determination and with just a little bit of money. Also, Skip McGrath's website is full of excellent resources, and enhances the subjects covered in the book. A must for every E-Bay seller!

Also for being so kind as to offer his readers many discounted items because they read his book. He also has an excellent web-site that just keeps giving more and more information. I was hesitant as to my ability to sell successfully on eBay, but after reading this book plus his ebooks on his website, I am confident that I can do this. Skip McGrath covers every aspect of the new-to-eBay selling experience. I don't think he could've gotten any more detailed. It is an easy read. It doesn't read "textbookish" more friendly and with a genuine feeling that he wants you to be successful. So if you need a book to learn about eBay and not sure, which out of the hundreds out there, to buy. Do not hesitate to choose this one. I feel like I won the eBay learning lottery with my choosing this book.

It is packed with information that is useful to the new beginner and up to the seasoned vet on eBay. I have had things explained that I just wasn't sure about and many things talked about that I did not even have any idea about. This is a book full of information that WILL take you to the top powerseller levels as long as you follow the instructions given by the author. The book is also well written so as not to talk over your head and not talk to you as if you were a toddler. I highly recommend this book to anyone that wants to advance in their eBay endeavors, to any level. An A++ book.

How to make it to the online big time! Titanium eBay; is for everyone who aspires to reach the highest level of success within eBay;, whether they've been selling for years or whether they're just starting out but have ambitious plans for their business. With 60 chapters that leave no stone unturned, this is truly the business bible for eBay; PowerSellers. ? eBay; ended 2007 with over \$8.7 billion in gross merchandise sales ? There are 212 million global registered eBay; users operating across 23 international eBay; sites, twice as many as in 2004 ? There are approximately 720,000 PowerSellers on eBay; who make a living selling merchandise through eBay;.

About the Author Skip McGrath has been an eBay PowerSeller since 1998. He is a registered eBay Trading Assistant, has lectured at eBay's annual convention and training event, eBay Live, and is the author of The eBay PowerSeller's Manual; one of the best-selling books on eBay; as well as five additional eBay titles. In 2000, he launched The Auction Seller's Resource website (www.skipmcgrath.com) and began publishing The eBay Seller's News, a monthly news letter for professional auction sellers. He also writes the "Auction Tips" column for the PayPal periodical.
