Bethany Moreton : To Serve God and Wal-Mart before purchasing it in order to gauge whether or not it would be worth my time, and all praised To Serve God and Wal-Mart:

0 of 0 people found the following review helpful. Seller experience was excellent. This book is recommended for anyone who is ...By dtheas Seller experience was excellent. This book is recommended for anyone who is interested in how the US current political situation can be traced back to Sam Walton and the Wal-Mart experience. Actually a really scary read. 2 of 3 people found the following review helpful. Interesting read By API had to read this for a college course and then do a report/analysis of the book. Learning about the history of Wal-Mart and their owner was

pretty interesting. She explains how it started as a one stop shop in an Ozark town and how it grew into the behemoth it is today. Definitely check it out if you are interested in the origins of the Wal-Mart, but also how Christianity and the Republican party play a role in that as well. It gets a little slow towards the end of the book, but pretty solid overall. 11 of 14 people found the following review helpful. fine scholarship
By samI live and teach in Arkansas, although most of my life and education have been in other regions of the country. No single book has given me more insight into the region in which I now live. I can attest to the author's statements about the culture and values of this region based on my daily experience here in WalMart country. Her judgments ring true. I didn't find the book overly tendentious and, in fact, some of the interpretations she makes strike me as almost too generous.

This extraordinary biography of Wal-Mart's world shows how a Christian pro-business movement grew from the bottom up as well as the top down, bolstering an economic vision that sanctifies corporate globalization.
