**Gerald Gurney, Donna A. Lopiano, Andrew Zimbalist : Unwinding Madness: What Went Wrong with College Sports and How to Fix It** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Unwinding Madness: What Went Wrong with College Sports and How to Fix It:

0 of 0 people found the following review helpful. interesting takeBy CustomerI think this book provides a very interesting take on college-athletes and pay for play. I had to get this for class but I actually can say I enjoyed reading this!1 of 1 people found the following review helpful. Five StarsBy Barry C. Kleiman AssociatesAnother well

researched, well written account by Andrew Zimbalist and Co.

A critical look at the tension between the larger role of the university and the commercialization of college sports. *Unwinding Madness* is the most comprehensive examination to date of how the NCAA (National Collegiate Athletic Association) has lost its way in the governance of intercollegiate athletics—and why it is incapable of achieving reform and must be replaced. The NCAA has placed commercial success above its responsibilities to protect the academic primacy, health and well-being of college athletes and fallen into an educational, ethical, and economic crisis. As long as intercollegiate athletics reside in the higher education environment, these programs must be academically compatible with their larger institutions, subordinate to their educational mission, and defensible from a not-for-profit organizational standpoint. The issue has never been a matter of whether intercollegiate athletics belongs in higher education as an extracurricular offering. Rather, the perennial challenge has been how these programs have been governed and conducted. The authors propose detailed solutions, starting with the creation of a new national governance organization to replace the NCAA. At the college level, these proposals will not diminish the revenue production capacity of sports programs but will restore academic integrity to the enterprise, provide fairer treatment of college athletes with better health protections, and restore the rights and freedoms of athletes, which have been taken away by a professionalized athletics mentality that controls the cost of its athlete labor force and overpays coaches and athletic directors. *Unwinding Madness* recognizes that there is no easy fix to the problems now facing college athletics. But the book does offer common sense, doable solutions that respect the rights of athletes, protect their health and well-being while delivering on the promise of a bona fide educational degree program.

In general, big time college sports have become so far removed from any reasonable connection to higher education as to be a sham. Who better than Andy Zimbalist to lay out the issues and provide a sensible plan for reform? Bob Costas, Broadcaster, NBC Sports and Major League Baseball Network. College and sports are an instant pairing for most of us. But sports have come to play an outsized role at many colleges, and they now overshadow the core college mission: to educate. The authors of *Unwinding Madness* carefully and dispassionately dissect the problem and offer a realistic path forward that makes education central once again. Arne Duncan, Secretary of Education, 2009. "The NCAA is a dirty cartel hiding under the skirts of a sham called amateurism." Everybody, however, pretty much accepts this as just one more prize example of good old American exceptionalism. While *Unwinding Madness* might not expose this obvious, long-standing hypocrisy, it provides, in comprehensive, scorching detail, every unfair and cruel aspect of the NCAA humbug. The book is a powerful indictment of our most shameful sports sin, and it should be read, foremost, by school presidents and university board chairs. And, too, by those athletic directors and coaches still bearing a conscience. Frank Deford, Author and Commentator
