By David Rubenstein
This book is based on the central thesis that businesses can increase sales by aligning themselves with social movements. The successful business examples the author uses are typically well-funded marketing campaigns rather than movements, and the authentic movements for the most part don't lend themselves to business campaigns. He tries hard to expand a few good ideas into a book, but in the end it feels inauthentic and fluffy. A bit like cotton candy ... or like a shoe company pretending a marketing campaign is really a social movement.

By Allenopia
This is a must read! Outstanding perspective on our world today and how to leverage your brand by launching a revolution! Scott's ability to take any brand and turn it into a movement is nothing short of pure genius!

Very poor executed book, I couldn't get past half the book. The author kept going over and over the same point on movements, and couldn't close the idea. Got bored!

The secret to movement marketing? Your customers want to make a difference
By Scott Goodson and his StrawberryFrog colleagues
have found the secret to plugging into Purpose with a capital P: find out what moves people to action, then create a way to support and enhance that movement with your product, service, or craft. I call that a winning strategy.
By Daniel H. Pink, author of Drive and A Whole New Mind
Want to change your customers' buying habits? Want to change the world? Stop marketing, read this book, roll up your sleeves, and start a movement.
By Sally Hogshead, author of Fascinate and creator of HowToFascinate.com
Essential stuff. One of the smartest thinkers on branding on one of the most important developments in that critical intersection between culture and marketing.
By Adam Morgan, author of Eating the Big Fish and The Pirate Inside
A well-researched and insightful book that will hopefully spark a movement against traditional, stodgy marketing. A must-read for the new generation of marketers who will be defining tomorrow's marketing landscape.
By Boutros Boutros, Senior Vice President, Emirates Airline
About the Book: Movement marketing is changing the world. It's the new way forward for anyone trying to win customers' loyalty, influence public opinion, and even change the world. In Uprising, Scott Goodson, founder and CEO of StrawberryFrog, the world's first cultural movement agency, shows how your idea or organization can successfully ride this wave of cultural movements to authentically connect to the lives and passions of people everywhere. We are in the midst of a profound cultural transformation in which technology is making it easier than ever for anyone to share ideas, goals, and interests. Working with companies and brands ranging from SmartCar to Pampers to Jim Beam to India's Mahindra Group, StrawberryFrog and Goodson have led a paradigm focal shift away from one-on-one selling to sharing. Using client case studies and contributions from a global team of movement marketing forerunners—among them, political guru Mark McKinnon; Lee Clow, creative chief at TBWA/Chiat/Day; Apple evangelist Guy Kawasaki; and Marty Cooke, who helped make yellow LIVESTRONG bracelets synonymous with the fight against cancer—Goodson details why and how individuals and companies are embracing the movement phenomenon. He then applies these insights to practical steps that you can take right now to reach people through what matters most to them, including: Stop talking about yourself—let the movement control your message Home in on the core objectives of your concept or brand—and align these values with what people are for (or against) Light the spark—create a culture within your organization that can embrace and drive a movement Leverage your assets—content, events, expertise, connecting platforms—to give people tools to spread your gospel Adjust concepts to travel across borders and link people across cultural boundaries The examples and guidance in this book will prepare you to find, connect to, and even lead the next big movement. What happens next is up to you. Get up. Go out. And create a brand Uprising of your own.
