W.O. Henderson : Zollverein Cb: The Zollverein before purchasing it in order to gage whether or not it would be worth my time, and all praised Zollverein Cb: The Zollverein:

0 of 0 people found the following review helpful. A thorough study of the development of the ZollveinBy Per Wagner NielsenHenderson work is a "must have" for every person who are interested in the making and development of the Zollverein. Whether you are a student of history or not, "The Zollverein" will give the reader a thorough knowledge of the factors that led to the establishment and development of the Zollverein. Henderson`s use of German sources and prior research for the book is extensive, and this(among others) makes it very usefull for the any student engaged in

this period of German and continental history. As a bachelor student of European history I have found this book to be indispensable for my understanding of the economic development of the German territories in the 19th century.
